

ITL DENTAL

OEM Dental Implant Products

Implants

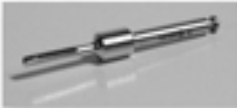

ITL Dental has been a supplier of OEM dental implant products for 17 years. The company has supplied products to a number of leading implant systems on a world-wide basis.

There are several advantages in contracting with us to supply your implant needs.

- Products are manufactured under a quality management system that complies with the requirements of ISO 13485.

Instrumentation

- We will manufacture product according to your purchase order but will allow you to withdraw product in smaller lot sizes to increase your effectiveness of managing cash flow and inventory levels. After your initial shipment, inventory would be available for immediate shipment. Your product can be withdrawn over one year from date of purchase order. This system will also offer you the lowest price based on total quantity pricing

- Some products already carry the CE mark and are FDA registered.

- We can manufacture implant products based on our drawings or we can use your drawings.

Prosthetics

- We can offer value added services such as surface treatment, packaging and sterilization.

- Products are manufactured with high quality materials and precise tolerances.

- ITL Dental is a registered FDA facility.

Contact us to discuss your implant needs.
